## WORD FROM OPPOSITION RECORDS STRAIGHTENED THE PRINCES APPOINTED THE PLAY AND THE PLAYERS GYMNASIUM FOR LADIES

### LAWYER MULLIGAN ON SAMOA SITUATION.

Says Judge Chambers' Decision Was Not Impartial and Condemns Bombardment—Claims for Damages.

Former Consul J. H. Mulligan was a passenger by the Alameda last night from Samoa to the mainland. He is returning to his home in Kentucky after a visit to Apia as attorney for the various German and "opposition" interests there.

He it was who wrote up the claims of residents against the United States and Great Britain for damage done their property during the bombardment and presented same to the commissioners.

Mr. Mulligan also appeared before the commission in his personal capacity and gave his views on the situation. The remainder of his stay in Samoa was devoted to other legal matters of his clients.

But the new order is carefully established and is continued with firmness, independent of all interests and above the petty jealousies of nationality or tribe. I feel confident it will bring peace to Samoa. Everything depends, however, upon how the powers go about it. The start will tell the story.

Malietoa Tanu is not yet satisfied and I believe he would take advantage of a loophole to make trouble. Mataafa is sincere in his promises to abide by the arrangement of the commission. And by the way Mataafa is a superior man. He has been abused more than anyone else in Samoa, and yet he has more brains than all the kanakas on the beach. He is unquestionably the most popular man in the Islands. He is gentle, makes a good appearance and at once commands the respect of strangers.

Mr. Mulligan does not think the decision of Chief Justice Chambers was the proper thing. He says Mataafa was elected by a very large majority. Chambers was prejudiced on the other side and went about the matter like a lawyer to make a case for his faction.

"No part of the decision would hold water. Of course the public, unfamiliar with Samoan conditions, accept it and know no better. It is not a fact that the commission endorsed the decision. Anything else was done, but in the interest of peace they announced that they must stand. Moreover, there was perhaps a desire to smooth over that bombardment outrage.

"Our claims for damages will be pressed at Washington and London. We are asking simply for the value of property actually destroyed. There was no more justification of the bombardment in theory or fact than there would be in an American warship cutting loose and blowing Honolulu to pieces."

British Commissioner C. N. E. Elliot was also a passenger by the Alameda. He went from Samoa to the Colonies to look over the country, and now goes to Washington where he will meet Mr. Tripp and Baron von Sternberg. Mr. Elliot declined to discuss the Samoan matter, further than to say that he believed peace had been permanently established. He denied emphatically that there was any personal differences between himself and his colleagues. Many of the Malietoa partisans had remained in Apia on the pretense that they were under the patronage of Right Hon. Earl Beauchamp, K. C. M. G. Friedenthal expects to arrive in Honolulu in September and will give a series of concerts.

Received, ex Mohican, handsome line of carriages and phaetons. W. W. Wright.

### LIST OF BURIALS SINCE THE YEAR 1842.

Nuuanu Cemetery Trustees Put Affairs in Order—How it is Proposed to Build a Crematory.

"The trustees of the Nuuanu Cemetery Association have done some hard work during the past year," said George K. Carter this morning. "You have no idea what a condition the affairs were in. Why the records had never been written up for 18 years, lots had been sold twice over, others were claimed and people had no receipts for them. However everything has now been straightened out, but if it had not been for the excellent memory of David Dayton, and his wonderful personal familiarity with the history of the town's people, I doubt if a satisfactory arrangement could have been reached.

"We have now a complete list, arranged alphabetically, of all burials that have taken place since the year 1842, and have a correct record of all private lot owners. To do this required a great amount of care and research, especially where there were two claimants for the same lot.

"The burials this last year have been 102, with the sale of the land left to strangers to the Islands. There has never been so large a percentage of strangers in the history of the cemetery. We have only a small quantity of available land left and it must be evident to anyone that the conditions call for some public action.

"By the constitution of the association the first duty of the trustees is the care of the property. In accordance with this provision the trustees favor the building of a chapel and a receiving vault. With the sale of the land left there will be money enough available to build these and have a reserve fund for the care of the property. It is suggested that this reserve fund could be invested to good advantage in erecting a crematory. The income derived from this source could be used for the care of the property.

"This is the first year that the accounts of the Cemetery Association have been published. The object of doing so has been to get the lot owners to take an active interest in the affairs of the association. To show how little interest has been taken I may state that though yesterday's meeting was fully advertised, there were only two lot owners present, outside of the trustees. When I was endeavoring to find evidence of the ownership of lots I repeatedly advertised but received no reply. It was only by personal solicitation that I was able to get matters straightened out.

"The treasurer's annual report, as you will see, shows a cash balance of \$10,000 and it is with this and the sale of the land that the projects of the trustees may be carried out."

### MAUNALEI PLANTATION.

Planting Commenced—Deep Soil on the Palawai Estate.

Fred Hayselden is down from Maui and reports that planting will commence in earnest at Maunalei next Monday. It is expected that some 600 acres will be planted in the next few weeks. All the machinery for the pumps will soon be on hand, having been shipped by the Andrew Welch, which is expected any day. The pumping plant will have a capacity of 30,000 gallons. The landing wharf is quite complete and trains are running upon it.

Mr. Hayselden accompanied Senator Clark when he visited Lanai, and showed him some of the many natural advantages of the Islands. A shaft had been sunk in Palawai for 70 feet, and there was not a rock or a stone in it. This gave the senator some idea of the soil on the estate.

The Maunalei plantation expects to harvest a crop next year and counts upon making a record with its yield per acre.

### MILL TO BE MOVED.

The planing mill at the corner of Bethel and King streets will shortly be moved to Palama. This institution has been a nuisance to the town center for a long time, both on account of the smoke from its short pipe and the lumber taken across the King street sidewalk on the shoulders of two all-day-long Chinamen. The decision to move the mill was announced this morning.

### THE WEATHER.

### MR. CECIL RHODES TAKES WATER.

During the speech to the shareholders of the Chartered Company, Mr. Rhodes' voice was affected by his cold. One of his brother directors handed him a glass of water. "Is it Apollinaris?" inquired the speaker, and on receiving an affirmative reply took a draught, said emphatically, "Good," and resumed his speech.

### ADMINISTRATORS OF KAPIOLANI ESTATE.

Distant Relatives Contest Petition But Fail to Make a Go of It—Several Estate Accounts.

David Kawanakoa and Jonah Kalaniana'ole were today appointed administrators of the estate of the late Dowager Queen Kapiolani. Their petition was contested by a number of natives from all parts of the Islands who claim relationship and an interest in the estate. Of the number a great niece was the nearest relation to appear and Judge Perry ruled that the two full nephews took precedence.

Indications are that there will be claims and perhaps suits for a portion of the property by these relations. At the same time, however, as pointed out by the court, the will is very explicit and deeds the property bodily to the two princes.

The Government lost the first two cases heard in Circuit Court by the foreign jury, which is precisely the experience with the native jury two weeks ago. Yesterday Leong Tai, the Waialua merchant charged with having opium in possession and fined \$200 in the District Court, was acquitted. Still later Kong Tai, charged with assault and battery was also acquitted. Both of the matters came from Waialua.

In the matter of the W. M. Gibson estate Cecil Brown, trustee, has filed a statement to the effect that, owing to the numerous ramifications in connection with the property he has had none of the estate's money in his hands for three years and is unable to account for any of the estate's affairs.

Judge Stanley this morning authorized W. A. Bowen, administrator of the estate of the late Inga Bergerson, to all certain real estate belonging to deceased at an upset price of \$5,000. The property is located in Makiki.

In the matter of Mary K. Tibbets vs. S. Pail, guardian, ejectment, decided yesterday in favor of the defendant, an appeal has been perfected by the plaintiff to the Supreme Court.

The trustees of the Charles R. Bishop trust today filed their annual account, charging \$34,152.29 and crediting \$33,672.65. J. O. Carter signs the statement for the board of trustees.

George R. Carter was today appointed administrator of the estate of the late Edward Dowsett under bonds in the sum of \$21,000.

In the matter of Mary K. Porter vs. John K. Sumner, assumpsit, plaintiff has filed a satisfaction or judgment.

J. Panniani has been appointed administrator of the estate of the late Hakulo, without bonds.

### YACHTS OUT.

H. M. Dow will take two crews of yachtsmen to Pearl Harbor this afternoon on the Abbie M. for the sail back tomorrow. The extra men go down to assist the three yachts on the fleet to the lochs this afternoon.

### NEW CAPTAIN STURDEE.

Commander Sturdee of H. B. M. S. Porpoise has been made a captain in recognition of his services in Samoa.

### TOYO MARU.

The Japanese steamship Toyo Maru expects to sail about Monday or Tuesday.

### A NEW HOUSE.

Wong Quai is putting up a fine house on his property on Fort street. The lot has been in Mr. Quai's possession for many years, and he has had it finely laid out in garden beds. There are quite a number of fruit trees. The Chinese method is different to the American. The land is carefully cultivated first, and then the house is built. The Anglo-Saxon builds his house first and then attends to his garden.

### UNIVERSITY EXTENSION.

There was a good attendance last night at the second of Dr. John Dewey's University Extension lectures. The subject was the development and play of imagination in childhood.

### SUMMER SCHOOL.

There was no session of the Summer School today. Many of the teachers were about town during the forenoon taking in the sights of the capital.

### WHY IS ICE SLIPPERY.

Professor Osborne Reynolds says ice is slippery for substantially the same reason as an iron or steel axle is when lubricated with oil or grease. All lubrication is due to the presence of a fluid, either liquid or gaseous, between the opposing surfaces and in the case of ice the pressure induces a partial liquefaction which is the sole cause of slipperiness. When ice is cooled below a certain point, it becomes no more slippery than a polished surface of stone.

MORE OF THEM USED.  
There are probably more Singer sewing machines used in the United States than of any other one make. This is a very excellent guarantee that they are one of the very best machines. The points of merit are strength, durability, easy running and simple construction. Very little mechanism to get out of order makes repair bills small. When in need of a new sewing machine examine the Singer before purchasing any other make. B. Bergeron, agent, Bethel street.

Only one BEST bicycle. The 'M' Cleveland. Come and see.

### GOING AWAY.

L. B. Kerr the Queen street merchant will go away on August 18th and from now until that date, announces a departure sale at his big dry goods store, at prices that will make competition impossible.

### THE COMPANY AT THE OPERA HOUSE TONIGHT.

Maggie Moore and H. R. Roberts With Their Company Arrived by the Alameda—Opening Performance Tonight.

A woman who has been a pronounced stage success in three continents arrived by the Alameda from Sydney last night, and before she returns to her home she intends to attempt success on a fourth.

That woman is Miss Maggie Moore. With H. R. Roberts she is at the head of a company of sixteen well selected and capable people on a tour that will include America, part of Europe and the Sulu Islands. Miss Moore was born in San Francisco and began her stage career at a time when the rough and ready as well as the adventurous and romantic spirit still predominated in California. Her first success was in "Struck Oil," in which the company will open their season tonight in Honolulu. It is a piece which so thoroughly presents the spirit of the times in which it was written and the human nature of all times that it has never been displaced from her repertory. Miss Moore acknowledges a fondness for the character she created in the play, even though her wide experience has made her familiar with all that is worth while in the modern drama.

But Miss Moore does not need to rest on early won laurels. Throughout her career she has kept up with the play-world. She has created parts in dramas written by as great a diversity of method and talent as those of Gilbert and Sullivan, Boucicault, Finero and Ibsen. She has presented Shakespearean characters and those of the early English dramatists with success.

She has the rare combination of talents which make her at once the successful actress and the successful woman of affairs. It is not every successful actress and theatrical manager would make the venture of taking a company from Australia for a tour of the world. But that is what she has done, and her past achievements justify her judgment.

H. R. Roberts, whose name goes in the same class type as her's on the company's paper is an actor who has yet to achieve success outside of his native country, Australia. But there he has easily ranked the profession in scope of achievement and versatility of talents.

The company are the best known stage people of Australia. There are Herbert Ashton, Alce Cochrane, Miss Branscombe, Fred Emelton and wife, Clarence Lyndon, William Townsend, Miss Osgood Moore, Percy Ward, Miss Corcoran and the Messrs. Bashford. The play tonight will present the whole strength of the company. The curtain rises at 8:15 and patrons are requested to be on time as the interest of the play starts with its beginning.

### ALWAYS READY.

Frederick the Great once requested his generals to submit to him plans of campaign for a supposed campaign. Hans Joachim von Zieten, the famous cavalry general, produced a queer diagram in black ink. It represented a big blot in the center, intersected by two black lines, whose four terminals ended each in a smaller blot. The king was stupefied and unbraided his sword in arms bitterly for what he considered disrespect. In explanation Von Zieten said: "Why, your majesty, I am the large blot in the center—the enemy is any one of the four smaller blots. He can march upon me from the right or the left, or from the front or the rear. If he does, I simply advance upon any of the four lines and lick him where I find him." Frederick was satisfied.

### RECOMMENDED FOR CHOLERA MORBUS.

"During the hot weather last summer I had a severe attack of cholera morbus, necessitating my leaving my business," says Mr. C. A. Hare, of Hare Brothers, Fincastle, Ohio. "After taking two or three doses of Chamberlain's Colic, Cholera and Diarrhoea Remedy, I was completely relieved and in a few hours was able to resume my work in my store. I sincerely recommend it to any one afflicted with stomach or bowel trouble." For sale by all dealers and druggists. Benson, Smith & Company, general agents, Hawaiian Islands.

### ONE TO BE STARTED AT THE Y. M. C. A.

Instructor to be Miss Adams, One of the Most Experienced Physical Trainers of the United States.

Miss Adams, sister of E. R. Adams, will establish and conduct in the Y. M. C. A. gymnasium here a school for the physical training of young ladies. The school will be nominally under the hand of the association, and the work will be encouraged as much as possible. Miss Adams is a graduate of one of the first physical culture institutions of the mainland and has had extensive experience as an instructor.

A ladies gymnasium here will be a novelty, but will doubtless be well received. In the East many Y. M. C. A.'s operate them in connection with the boys' gymnasium. At the meeting of directors of the local association last evening the idea was generally endorsed.

Mr. Coates, the new assistant secretary of the Y. M. C. A. will arrive on September 13. A reception will be tendered to him shortly after, perhaps the same evening.

On account of the absence of Mr. Coleman on vacation there was no report from the secretary at last night's meeting. The treasurer's report was submitted and deferred.

President Weedon reported on his trip East and the meeting at Grand Rapids. He said that he told the national delegates that that Honolulu Y. M. C. A. had celebrated its 20th anniversary and had not a cent of debt. All were astounded at this. At the time the speech was made Grand Rapids Y. M. C. A. had a debt of \$5,000. The members set to work and before the convention closed had cleared off all the debt. They wanted to be even with Honolulu, at least.

Secretary Coleman reported that V. W. Helm, a prominent Y. M. C. A. worker, would shortly arrive here, accompanied by his bride, on his way to Japan on some special mission. The directors decided to make him the guest of the association while here.

### KAMEHAMEHA ALUMNI.

Will Send to Mainland for Furniture. Admits Hilo Auxiliary.

At the meeting of the Kamehameha Alumni last evening the report of the committee on furniture was submitted. It was recommended that furniture for the new home be purchased in San Francisco, and this course will probably be followed. Sam Mahuka was added to the committee in place of Oscar Cox, who is ill.

The committee from Hilo to admit the Hilo Branch of the Kamehameha Alumni Association passed. This matter has been under discussion for some time.

### POLICE COURT.

In Judge Wilcox's temple of justice this morning Jos Nunez was charged with battery on Maria Nunez. Sentence was suspended for six months on the promise of defendant to behave himself. Mikela Paulo, larceny, was continued to August 22.

### THE ORPHEUM TONIGHT.

Post and Marion, in "The Prize Fight" tonight, will create one big laugh from start to finish. The program is the best yet presented at this popular playhouse. Boggs and Haeward have a beautiful little sketch, "On a Winter's night." Miss Dixon as the "Tender Girl" is as hard as they make them. Her costume songs have made a big hit. Post and Marion as the "Happy Hottentots" cut up some very funny capers. This is Saturday night, and tickets should be secured in advance to be sure of a seat.
